BACKSTORY *is a new public radio program that brings historical perspective to the events happening around us today. Created and produced by VFH Radio at the Virginia Foundation for the Humanities in Charlottesville, VA, BackStory makes history come alive by relating it to the present. On each show, renowned U.S. historians and professors Ed Ayers, Peter Onuf, and Brian Balogh– the "Click & Clack of History"– tear a topic from the headlines and plumb its historical depths, providing perspectives and connecting past and present. With its passionate, intelligent, and irreverent approach, BackStory is fun and essential listening regardless of your political or professional bent!*
