

New England College

Information Technology Tip Sheet

Web Addresses For Directly Accessing NEC Services

The below links are NEC provided services that are typically reached by going through MyNEC on our www.nec.edu website. However, these links are not dependant on the NEC website and can be reached by clicking the below link or just typing them directly into your web browser regardless of website availability.

Please note that using the “MyNEC” link on the left side of the NEC home page is the most preferred method for you to access these services. If the links below change, the MyNEC page will be up to date. We also post system outage messages on the MyNEC which you would miss if you go to the below links directly.

Blackboard:
