

The following classes have been added for SUMMER SESSION I:

CRN 209 CT 1990 Comprehensive Excel 4 credits Pringle
ONLINE

Students will learn to organize collections of data, perform mathematical operations, and, using spreadsheets, produce graphs, reports, and other advanced applications with those data. The emphasis is on a project-oriented approach, and requires students to apply their spreadsheet skills to solving real-world applications.

CRN 210 MT 0990 Essential Mathematics 2 credits Dunnington
0930-1200 MWF SB 113B

CRN 211 LAS 2140 International Literature 4 crs Boyadjian-Haddad
0900-1130 TWR Spaulding 202
Xlist: EN 1950
