

Three-Year Cooperative BSN Degree Plan AY2022-2023

| First Year |   |         |        |   |         |        |                                    |         |
|------------|---|---------|--------|---|---------|--------|------------------------------------|---------|
| Fall       |   | Credits | Spring |   | Credits | Summer |                                    | Credits |
| LAS1000    | First-Year Seminar  | 2       | PS2160 | Lifespan Development (OS)   | 4       | NU1140 | Cooperative Experience I (SU only) | 12      |
| WR1010     | Composition   | 4       | BI1020 | Foundations of Nutrition (OS)   | 4       | MT1100 | Quantitative Reasoning (OS)        | 4       |
| PS1110     | Intro to Psychology (LAS 4)   | 4       | NU1130 | Professional Nursing II (SP only)   | 4       |        |                                    |         |
| NU1110     | Professional Nursing I (FA only)  | 2       |        |   |         |        |                                    |         |
| NU1120     | Anatomy, Physiology, & Health Assessment I (LAS 5) (FA only)                | 4       | NU1121 | Human Anatomy, Physiology, & Health Assessment II (SP only)                           | 4       |        |                                    |         |
|            | or  |         |        | or  |         |        |                                    |         |
|            | (T) Anatomy & Physiology I and (T)/take additional LAS 5 course here at NEC | 4       |        | (T) Anatomy & Physiology II and (T)/take NU 1250 Health Assessment course here at NEC | 4       |        |                                    |         |
|            | Total   | 16      |        | Total   | 16      |        | Total                              | 16      |

\*First-Year Fall and Spring courses and LNA licensure must be completed prior to Cooperative Experience I.

\*Course designated (OS) can be taken out of sequence in any semester.

\*Students who wish to transfer in previous Anatomy and Physiology I & II credit, be aware that you must complete an LAS 5 – Lab Science course through (T) transfer of an equivalent lab science or by taking an LAS 5 course here at NEC in the fall. In addition, you must (T) transfer in an equivalent Health Assessment course or take a Health Assessment course (A&P I&II prereqs) here at NEC in the spring. This may or may not increase your program credit total.

**Second Year**

| Second Year |                                    |         |         |                           |         |                    |  |         |
|-------------|------------------------------------|---------|---------|---------------------------|---------|--------------------|--|---------|
| Fall        |                                    | Credits | Spring  |                           | Credits | Summer             |  | Credits |
